## DETAILED ACTION

### *Election/Restrictions*

1. ~~Applicant arguments regarding the election of species are unpersuasive.~~ The election/restriction requirement clearly indicated that an election of species was required, quoting the restriction "applicant is required, in reply to this action, to elect a single species based on the composition of the first and second body (i.e. Applicant must indicate a single species for each component of the first and second body)". Applicant then elected one ingredient for each that was examined. Claim 24 has also been withdrawn since it requires that the entire second body is not composed of sulfur.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 5, 7, 9, 11, 13, 14, 22, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Schneider et al (3,985,076).

Schneider et al discloses a air bag apparatus that comprises a filter, a cooling device, and a pH adjusting material. The pH adjusting material is separate from the gas generating composition (see fig. 10 and 31). The pH adjusting material comprises powdered iron sulfate. The gas generating composition comprises sodium azide and chromic chloride. The sulfur compound will inherently act to neutralize the agents from the combustion. As to limitations which are considered to be inherent in a reference,

note the case law of *In re Ludke*, 169 USPQ 563; *In re Swinehart*, 169 USPQ 226, *In re Fitzgerald*, 205 USPQ 594; *In re Best et al*, 195 USPQ 430; and *In re Brown*, 173 USPQ 685, 688.

4. Claims 1, 2, 4, 5, 7, 9, 11, 13, 14, 15, 22, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Green et al(5,772,243).

Green et al discloses a gas generator which comprises multiple pellets of a gas generating composition in the chamber (fig. 4, ref. 24) and filters. Each pellet comprises 65-70 % of a metal azide (such as sodium), and 27-33 % of molybdenum disulfide (col. 3, lines 35-45) and there are more than 1 body (pellet) shown. The pellets are separate from each other but in the same combustion chamber. The composition will combust to form nitrogen, oxygen and hydrogen components. The sulfur compound will inherently act to neutralize the agents from the combustion. As to limitations which are considered to be inherent in a reference, note the case law of *In re Ludke*, 169 USPQ 563; *In re Swinehart*, 169 USPQ 226, *In re Fitzgerald*, 205 USPQ 594; *In re Best et al*, 195 USPQ 430; and *In re Brown*, 173 USPQ 685, 688.

#### ***Response to Arguments***

5. Applicant's arguments filed have been fully considered but they are not persuasive. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

---

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
